

## EC – declaration of conformity

According to NV 190/2002 Sb.

Nr. 080.00-02 ES2010

### Producer

Company: ASIO spol. s r.o.  
Address: Jiřikovice 83, 664 51 Jiřikovice

### Product

Name: type line of oil separator  
Type: AS TOP NS y /T /M /Z - SV

### Description of product:

Type line of gravitational and coalescent oil separators serve to separation of oil substances for example petroleum or mineral oils with density till  $950 \text{ mg/cm}^3$  from waste water. Oil separators are divided into several groups according to nominal size (NS), which is specified by max. flow, characteristic and volume of sludge tank (y), shape of tank and type of installation of tank (T), material of tank (M), "by-pass equipment" (Z) and possibility for using of separator under the ground water level (SV). Oil separators are intended for connection on canalization system and serve as protection of system against oils.

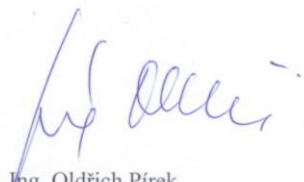

Norms and directives: ČSN EN 858-1

Special conditions for using of products: Not prescribed

Mark of product: CE
